

ERKAPHON CHILD

LISTEN TO THE BLOOD PRESSURE.

The Erkaphon Child is specially tailored to the needs of nurses and caregivers in the auscultation of children. The ergonomically shaped chest-piece is perfectly suited for optimal auscultation of hard to reach or very small areas.

WHY THE ACOUSTICS OF THE STETHOSCOPIES ERKA ARE SO BRILLIANT

Our unique ERKA convex membrane has been specially designed for transmitting high and low frequency tones. All ERKA ACOUSTIC, ERKA PULSE and ERKA CHILD stethoscopes have this membrane, guaranteeing you transmission of sound of absolute top class!

WHY IS THE ERKAPHON SPRING OUTSIDE?

The binaural-mounted spring enables optimal forwarding of the sounds through the single-channel tube.

YOU'D LIKE TO CONCENTRATE ON THE ESSENTIAL?

The ergonomically shaped soft ear tips will fit your ear canals perfectly and block out external noise.

WHAT MAKES AN ERKA STETHOSCOPE SO INDIVIDUAL?

Every single ERKA stethoscope is a unique masterpiece: elaborately polished and chrome plated by a master craftsman since 1889! Handmade in Germany with the experience of more than 125 years.

HOW CAN I PERSONALIZE MY STETHOSCOPE?

Each stethoscope can be personalized with an individual laser engraving or a customized membrane.

WHAT DISTINGUISHES THE ERKA STETHOSCOPIES FROM THE BROAD MASS?

Be special! Choose from a wide range of different tube colors to render your everyday life a little more colorful.

HOW CAN ERKA PROTECT YOU AND YOUR PATIENTS AGAINST INFECTIONS BY USING A STETHOSCOPE?

All components used in an ERKA stethoscope can be cleaned and disinfected easily and thoroughly. We continuously test all common medical detergents and recommend these disinfectants unrestrictedly.

WHAT DOES YOUR PATIENT CAN EXPECT OF AN ERKA STETHOSCOPE?

Our membrane has been successfully tested and accordingly certified for biocompatibility. It also was classified as dermatologically safe.

HOW ERKA PROTECTS YOU BEYOND?

The chest-piece of an ERKA stethoscope is made from hand polished and pore free chromed brass. Compared to aluminum or stainless steel, this surface is more resistant to germs and bacteria.

WHY AN ERKA STETHOSCOPE IS SUITABLE FOR PERFECT AUSCULTATION?

Each ERKA stethoscope is equipped with a perfect ergonomically shaped chest-piece available in different sizes. This enables auscultation even in hard-to reach areas or for different constituted patient.

EVERY EAR IS DIFFERENT?

Yes! Therefore the ergonomically shaped binurals of every ERKA stethoscope are individually adaptable to your ear canal - so you can work perfectly.

SOFT OR SUPER SOFT?

Every ERKA stethoscope comes with an extra selection of ear tips to best meet your needs.

MEMBRANE

The pre-tensioned ERKA. convex membrane provides excellent resonance and sound transmission.

CHEST-PIECE

Highly polished and chromium-plated for a non-porous surface, the brass chest-piece ensures perfect surface hygiene. The ergonomically shaped chest-piece is perfectly suited for optimal auscultation of hard to reach or very small areas.

BINURALS

The soft ear tips fit ideally into the ear canal and thus minimise the influx of external noise.

EAR TIPS

The soft ear tips fit ideally into the ear canal and thus minimise the influx of external noise.
