

STERILE LATEX, POWDERED SURGICAL GLOVES

The Classic surgical gloves made to meet today's stringent demands.

IDEAL FORMULATION & DESIGN

We have perfected the ideal formulation for natural latex to obtain a very soft and elastic gloves designed for long wear comfort. The strength of the glove ensures safety on prolonged wear.

MICRO-TEXTURED SURFACE

Surface of all Adventa Health surgical gloves is specially treated with micro-textured surface to enhance slip-resistance for extra grip and control during surgical procedures.

ANATOMICAL DESIGN

Each pair of Adventa Health gloves is anatomically designed. The curved fingers follow the natural finger shapes at rest to reduce fatigue and finger dexterity, even during rigorous procedures.

EXCELLENT DONNING & FIT

The special ergonomically designed mould produce gloves of high comfort and long wearability. The multi contoured palm and fingers ensure a comfortable and exacting for precision work.

SPECIAL FEATURES

- Highest Protection Level - AQL 0.65
- Shelf life 5 years
- ARD Design (Anti Roll Down) - Beaded cuffed with good grip prevent cuff roll down
- Undetectable protein level (very low risk of class 1 allergy)
- Excellent finger sensitivity with consistent grip
- Sterilization by irradiation for guaranteed sterility

MAXITEX[®]
